

***Behavioral Research Advancements in Neuroscience Program
(BRAIN)
2008 Summer Program Application***

Essay Questions

Short Answer Questions: Please answer all of the questions on a separate sheet, in 250 words or less typed.

1. Please describe what you remember most about your science experiences in your K-12 schooling, your after-school activities, and your summer activities.
2. Why are you interested in participating in the BRAIN program and how will this program help prepare you for your future career goals?
3. The BRAIN program is committed to the development of ethical leaders in the field of neuroscience. Please describe an experience when you had to make an ethical decision. What was your decision and why did you make it?
4. If you believe that your academic record does not accurately reflect your potential, please explain briefly.

Essay Questions: Choose one and answer it on a separate sheet, in 500 words or less typed

1. Clearly describe one of the most important events, courses, experiences, or persons that initiated your interest in neuroscience and how that experience or person sparked your interest in neuroscience.
2. What is a difficult challenge that you had to overcome that solidified your interest in science?

Please include CD with individual Word document files for each written entry with correct file titles.
