

ATTENTION: Undergraduate Neuroscientists

BRAIN program seeks participants for summer 2009

Are you ready for an intensive 10-week summer neuroscience research experience?

Consider applying for the **Behavioral Research Advancements in Neuroscience (BRAIN)** program in Atlanta. We are looking for candidates who are hard working, detail oriented, enthusiastic, and who want to engage in cutting edge neuroscience research. Some accepted Fellows will work at the cellular or molecular level in laboratories, others will work on the systems or behavioral level with animals in labs or outdoor field sites. Experiments may include day or evening work. Be a part of an exciting summer research opportunity!

- ◆ Outstanding undergraduate students interested in research experience in the neurosciences are encouraged to apply for BRAIN 2009. (Applicants may come from any U.S. institution, and must have valid social security numbers.)
- ◆ Participation earns a summer stipend of \$3,000, and housing is included.
- ◆ Program participants will be requested to consent to the use of survey responses, research reports, and interview or focus group discussion comments for analysis of program outcomes.
- ◆ Applications will be available in mid-December 2008 at: www.cbn-atl.org/education/brain.shtml and are due in early February 2009.
- ◆ See www.cbn-atl.org/education/brain.shtml for application requirements and more information.
